

Quality

IDALSA with the aim of offering to clients the highest quality levels, from 1997 counts on certification ISO 9002:1994, that was adapted in 2001 to certification ISO 9001:2000 obtaining the corresponding title deeds of company through the credited organization to this end, SGS ICS.

Is political of Idalsa to establish and to maintain System of Management of Quality, based on requirements of norm ISO 9001:2008, that assures that the products that the Company offers, satisfy the expectations with Quality the Clients and our own exigencies.

In Idalsa we understand the Quality like:

“The search of the excellence through continuous effort, in all the areas of the Company and of all their group, to understand and to satisfy the expectations with the client”
